

Press Release:

## Alhind Air Selects PPS Flight Planning® for Efficient and Environmentally Friendly Flight Operations

**Cochin, Kerala, India – February 2025** – Alhind Air, a new airline based in Cochin, Kerala, is pleased to announce the signing of a long-term agreement with AIR SUPPORT A/S for the implementation of PPS Flight Planning®. Alhind Air will soon commence operations, connecting a wide range of destinations across India with a modern fleet of ATR72-600 aircraft.

The selection of PPS Flight Planning will provide Alhind Air with numerous advantages, including advanced and highly optimized flight planning. This will ensure the most efficient routes are used, supporting Alhind Air's commitment to environmental sustainability by reducing fuel burn.

PPS Flight Planning by AIR SUPPORT is a trusted solution used by more than 500 operators in 100+ countries globally. The latest generation PPS X environment offers exceptional flight planning, fuel planning, and optimization functionality. Since its establishment in 1989, AIR SUPPORT A/S, with headquarters in Denmark, has been delivering innovative flight planning solutions to clients worldwide, with a global team located in Denmark, Belgium, France, Canada, and Singapore.

### Quote from Reena Rahman, Chief Operating Officer, Alhind Air:

*"We are thrilled to partner with AIR SUPPORT® and implement PPS Flight Planning® for our operations. The advanced capabilities of PPS X will enable us to optimize our flight routes, significantly reduce fuel consumption, and minimize our environmental impact. This aligns perfectly with our commitment to sustainability and operational efficiency. We are confident that this collaboration will support our mission to provide safe, reliable, and eco-friendly air travel to our passengers.*

*Additionally, Alhind Air is proud to support a range of UDAN routes across southern India, connecting business, friends, and family with direct services and a modern fleet of aircraft."*

### Quote from Stephen Young, Vice President (Asia), Air Support A/S:

*"We are immensely proud that Alhind Air has chosen PPS Flight Planning for their operations. For 35 years, we have been dedicated to supporting airlines with safe, efficient, and reliable flight planning. India is a vital and dynamic market for us, and over the past decade, we have witnessed remarkable transformations with enhanced connectivity, more airports, and an increasing number of airlines serving India and beyond. Initiatives like UDAN have opened up unprecedented travel opportunities for residents of smaller towns and cities across India.*

*Alhind Air's decision to select PPS Flight Planning is a testament to the thorough evaluation by the Alhind team and the relentless efforts of our entire AIR SUPPORT team. We remain committed to continuously enhancing and developing our solutions to meet the evolving needs of airlines worldwide, both today and long into the future."*
